### **REASONS FOR ALLOWANCE**

The following is an examiner's statement of reasons for allowance: The combination of features in the independent claims was not found in the prior art. The prior art comprises processors that can be cascaded together where each processor can assign and perform tasks and perform context switching and transfer data between the processors. However, the claimed combination of features (claims 1,30) comprising each processing stage, managing parallel processing of multiple tasks, including establishing a context for each of the multiple tasks, in which at least one of the multiple tasks requires execution of multiple instructions, switching from processing one of the multiple tasks to another of the multiple tasks based on execution of the instructions, and passing data associated with the multiple tasks to a subsequent programming stage upon completion of the multiple tasks was not found in the prior art. Also, the variations of the above in claim 19, 26, 33 where the multiple tasks are claimed as "tasks" in the "switch" and/or "pass" portions of the claims 19,26,33 was also not found in the prior art.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Eric Coleman whose telephone number is (571) 272-4163. The examiner can normally be reached on Monday-Thursday.
